

"Dont worry we keep  
baggage"

normally tiring and the most frustrating thing to do is wait for your luggage and you have no idea how long will it take for your luggage to arrive or there might be some problem which you might know later on.

This app helps the passengers to track their checked in bags and find out the location and ETA avoiding panic and frustration of the passenger.

- The diagram illustrates a user interface for tracking luggage. At the top, a man in a brown shirt and orange pants stands with his back to the viewer, looking at a large blue circular area representing a map or search results. Below him are two pieces of luggage: a red backpack and a dark blue suitcase. A large downward-pointing arrow originates from the bottom of the circular area and points to a central black rectangular box. This box contains the word "MAP" in large white letters at the top. Below it is a horizontal line, followed by the text "Baggage status" and another horizontal line. Further down is the text "Directions" with a horizontal line, and at the bottom, "Authority Details ( if any problems)". To the right of this central box is a vertical line with a horizontal arrow pointing right, leading to a second black rectangular box. This second box also contains the word "MAP" in large white letters. Below it, the text "directing to the baggage arrival place" is visible.
